CODESPREE

presented by Codecell

OVERVIEW

CodeSpree is Abhiyantriki pre-event. It is a national level online competitive programming competition hosted on Codechef. It will be held on 1st/2nd of October.

RULES

- The task in CodeSpree is to write the solution to a given problem statement in C, C++, Java, or Python.
- The difficulty level will vary from beginner to hard.
- The contest is open to participants from all around the world.
- However, participants from India will only be considered for the prize.
- Top participants from Mumbai will be invited to Abhiyantriki for an onsite event called Crackathon, and will be directly eligible for it's final round.

JUDGING CRITERIA

- Grand prize will be given to the top candidate from Mumbai in the leaderboard rankings, after the contest is over.
- There will be only one prize.
- Certificate of excellence will be given to the top 3 performers from Mumbai.
- Certificate of participation will be give to candidates who solve more than 30% of problems.
