JUMBLED CODE

presented by CSI

OVERVIEW

This is a time-based fun puzzle in the form of code, where an incomplete or jumbled code snippet will be displayed on a wall. A team of two will correct or complete the code by rearranging the code in such manner that it produces the desired output.

RULES

- The participants will be given lines of code, these lines need to be arranged to form a meaningful code.
- This is a time-based challenge, 10 minutes will be given to form a meaningful code.
- No extra line should be appended to the existing code.

Registration fee: Free (Team of 2)
Prizes: Goodies
